Lucid.
Thinking clearly about IT.

HOW WE CAN HELP

- **QUALIFIED CONSULTANTS**
  Accredited Cyber Essentials Practitioners qualified to help at every stage of your certification.

- **IN-PERSON HELP**
  On site consultancy – no self certification or telephone-only service.

- **WORKING WITH YOU**
  We work alongside your own IT team or outsourced provider to help you get certified.

- **PRACTICAL TECHNICAL HELP**
  Experienced consultants with over 20 years IT experience, and skills in products and services from all major vendors – providing practical technical IT infrastructure help to get you certified.

CONCERNED ABOUT CYBER SECURITY IN YOUR PRACTICE?

Lexcel 6.1 recommends Cyber Essentials from November 2018

Cyber Security is the biggest technical issue facing legal firms today, with £11million of client money stolen last year.

Cyber Essentials is a UK Government backed cyber certification scheme which helps guard against 88% of known cyber attacks.

By getting Cyber Essentials Certified, your practice can demonstrate to clients, suppliers and other stakeholders that you are taking effective measures to secure client data and funds.

With over 20 years' experience of delivering secure and reliable IT services to the professions, we help you get Cyber Essentials certified quickly.

Our Accredited Cyber Essentials Practitioners are qualified to help you every step of the way.

Visit www.lucidnetworks.co.uk or call us on **0800 862 0095** to find out how we can help you.
